

KINGSHURST VILLAGE CENTRE REGENERATION Planning Brief – Consultation

Find out more about the proposals by attending a drop-in session at Kingshurst Library:

- *Monday 25th February 2019 from 2pm until 5pm*
- *Thursday 7th March 2019 from 4pm until 8pm*

Building on previous work and consultation, a Planning Brief has been prepared to establish a deliverable scheme to bring forward the successful regeneration of the village centre. In particular it highlights and seeks to address issues identified with the previous draft scheme options, and updates the proposed development area to maximise capacity of the site to deliver a transformational and vibrant village centre.

The scheme will provide new shops, medical and community facilities, with a new high street and better connections to the school and park. Based on the intervention needed an extended site area is proposed to maximise the opportunity for change, and we would like to hear your views.

Details of the consultation, the consultation material and questionnaire will be available on the Solihull Council website from 18th February until 18th March.
