

**SMITH'S WOOD MEDICAL CENTRE
BURTONS WAY
B36 0SZ**
Spring 2019 Newsletter No.3

The project continues to proceed to schedule with the building now watertight and with the scaffold dismantled the new centre is visible in all its glory.

We are now pressing ahead with the external works and internal fit out works to create the new medical and dental practice space with over 30 clinical rooms.

This facility will provide much needed health services to the local community bringing together the local services from various different locations all under one roof.

We continue to liaise with all of our neighbours to limit the impact these works are having on the local environment and will continue to keep you informed of our progress as the scheme develops.

However, if you do have any concerns regarding the works please contact our site manager John Murphy on 07799 118 995 and he we will do his utmost to answer any queries you may have.

Alternatively, please contact our Head office and speak to James Harrison on 0121 250 0700.
